

Smart/Ease Activity

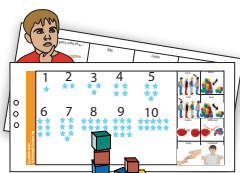

Transform the way children communicate, learn and explore their world with Smart/Ease activities. Smart/Ease activities are pre-made overlays, developed by a speech-language pathologist, that emotionally and intellectually captivate the minds and imaginations of children of all ages. Smart/Ease activities cultivate meaningful expression and encourage children to succeed in school.

New Fun With Smart/Ease Communication Overlays With Grade Level Academic Content Providing Access To The General Curriculum By Addressing National Content Standards In Education.

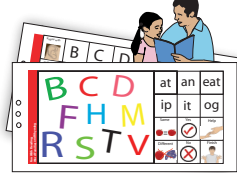

The Fun With Series promotes proper device usage while providing appropriate vocabulary in various academic areas. Each activity targets specific grade level skills and the completed series addresses most national content standards. The activities were designed to be used either during whole class instruction or individually using the supplemental CD full of worksheets and activities specific to grade level classroom skills. The Fun With Series is now available for Prekindergarten/Kindergarten and First Grade! The Fun With Series is available for all Tech and Smart series devices.
